

# BANK OF SOUTH SUDAN (BoSS)

## Department of Communication and PR

---

### **7. Implementing Innovative Financial Inclusion Programs**

The Governor continues to champion the implementation of innovative financial inclusion programs aimed at reaching unbanked communities, including by reaching out to financial institutions and encouraging to foster financial intermediation, digitalization, and innovation. These programs broadly seek to expand access to financial services, promote economic empowerment, and foster inclusive growth across South Sudan.

### **8. Enhancing Collaboration with International Financial Institutions**

The Governor has prioritized enhancing collaboration with international financial institutions, including the IMF and World Bank, to support economic development initiatives in South Sudan. This strategic engagement can facilitate access to expertise, resources, and funding opportunities that have implications to contribute to the country's economic growth and stability.

### **9. Augmenting Communication Strategy**

The Governor directed the development of a comprehensive communication strategy to ensure that the Bank's messages are effectively conveyed to the public, government agencies, and international partners. These publications communicated through print media, social media, and posting them on the Bank website: [www.boSS.gov.ss](http://www.boSS.gov.ss)

### **10. Advancing Information Technology**

The Governor has spearheaded the computerization of the functions and operations of the Bank. Computerization is essential to promote efficiency, security, reliability, and availability of services in real time. These efforts include implementation of the SWIFT Scope for Central Banks project. The Swift Scope is business intelligence tool, that will enable the Bank of South Sudan to capture all transactions data for cross-border payments, originating from financial institutions in South Sudan. The data captured via SWIFT Scope remains subject to analysis to draw useful insights, thereby helping the Senior management to make informed decisions.

The fraternity of the Bank of South Sudan are, therefore, called upon to demonstrate their undivided support and active participation in bank-wide programs. It is this way that, together, we will improve the effectiveness and efficiency of Bank Services and ensure a, sound, stable macroeconomic environment, and vibrant financial sector.

Going forward, the Bank continues to focus on efforts geared towards strengthening monetary policy framework, improving communication, enhancing coordination with fiscal authorities,
